PREPARED FOR

Tau Tau Chapter, Omega Psi Phi Fraternity, Inc.

ONBOARDING CHECKLIST

What I need to get started.

Fifteen things, most of them quick. Some come from the chapter, a couple we do together, and the rest are on me. Tick them off as you go.

BUDGET	LAUNCH	FEEDBACK
$2,500 · 50% to start	By November 1, 2026	Within 2 business days

From the chapter

0 / 9

Most of this already exists. It's about finding it, confirming it's current, and saying yes.

- [ ] 01 **A point of contact and a small review group**
  One brother to coordinate with me, plus 3–5 brothers who review each step and can sign off.
- [ ] 02 **The go-ahead and the deposit**
  Approval from chapter leadership and 50% ($1,250) to start. The rest is due at launch.
- [ ] 03 **Quick feedback at each review**
  Comments within 2 business days, so we stay on track for November 1.
- [ ] 04 **Logins for the current website and domain**
  So I can back everything up before we switch, and keep chapter email working the whole time.
- [ ] 05 **A shared chapter email**
  Something like webmaster@, so the website's accounts belong to the chapter, not to one person.
- [ ] 06 **The chapter's story and people**
  The latest history, the lineage list, current officers, program descriptions and impact numbers.
- [ ] 07 **Upcoming events**
  Dates, places and ticket links for the next 6–12 months.
- [ ] 08 **Photos, with permission**
  The photos you're happy to show online, who took them, and an OK for any photos of young people.
- [ ] 09 **Logo files**
  The chapter logo, plus written approval from national before any fraternity marks go on the site.

Together

0 / 2

- [ ] 10 **A kickoff meeting**
  About an hour to agree on what's in this first phase, the schedule and who does what.
- [ ] 11 **Launch day**
  Pick a date to switch over, then check together that email and old links still work.

From me

0 / 4

- [ ] 12 **A written proposal**
  Scope, timeline and price in writing, so everyone knows what to expect.
- [ ] 13 **Everything set up in the chapter's name**
  The website, its hosting and the editing tools, owned by the chapter. I'm added as a helper, never the only owner.
- [ ] 14 **Training and a simple guide**
  A short recorded walkthrough and a one-page guide, so brothers can update the site themselves.
- [ ] 15 **Help after launch, if you want it**
  Optional ongoing support, agreed separately.

Later: the Brothers' Hub

Dues, RSVPs, chapter votes and member logins come in phase 2, with their own quote once the website is live. We'll talk through those decisions then.

Keeping it up after launch

No code needed

Brothers update events, officers, programs and photos with simple forms.

Owned by the chapter

Every account is in the chapter's name, so nothing depends on one person.

Safe to change

Preview changes before they go live, and undo any update in one click.
