TAU TAU CHAPTER · WEBSITE PROJECT

Onboarding checklist

What I need from the chapter to start, who owns each step, and the stack that lets the brothers keep the site current long after launch.

0 / 42

42 to go

$2,500 · Website | 50% upfront | Final delivery Nov 1, 2026

People and decisions

0 / 8

Who leads on the chapter side, who approves, and what we agree before work starts.

- [ ] **Written proposal** — BRANDON
  Public website for $2,500, with final delivery on November 1, 2026. The Brothers' Hub is quoted separately.
- [ ] **Name a point of contact, plus a backup** — CHAPTER
  One brother who coordinates content, feedback and scheduling.
- [ ] **Form a review group of 3–5 brothers** — CHAPTER
  They review each milestone and can approve on the chapter's behalf.
- [ ] **Confirm who gives final sign-off** — CHAPTER
  Basileus, executive board, or a chapter vote.

- [ ] **Confirm Phase 1 scope** — TOGETHER
  Phase 1 is the public website, due November 1. The Brothers' Hub is Phase 2, with its own quote and timeline.

- [ ] **Set the feedback window** — TOGETHER
  Comments within 2 business days at each review.

- [ ] **Approve the budget and sign the agreement** — CHAPTER
  $2,500 for the public website: 50% ($1,250) upfront to start, the remaining $1,250 as set in the agreement.

- [ ] **Schedule the kickoff meeting** — TOGETHER
  About 60 minutes with the point of contact and review group, as early as possible to hold November 1.

Accounts and ownership

0 / 9

The chapter owns every account. I'm invited as an admin, never the only owner.

- [ ] **Create a shared chapter email for accounts** — CHAPTER
  For example webmaster@tautauchapterques.com, so accounts survive officer changes.

- [ ] **Set up a shared password vault** — CHAPTER
  At least two brothers hold access to every login.

- [ ] **Domain registrar login for tautauchapterques.com** — CHAPTER
  Plus the renewal date and who pays for it.

- [ ] **Where chapter email is hosted** — CHAPTER
  So switching the website never interrupts addresses like the Basileus inbox.

- [ ] **Current WordPress and hosting logins** — CHAPTER
  For a full export and backup of pages, photos and the dues link before anything changes.

- [ ] **Create a chapter GitHub organization** — CHAPTER
  Owned by the chapter email; invite Brandon as an admin. The code lives here.

- [ ] **Create a chapter Vercel team** — CHAPTER
  Connected to GitHub, owned by the chapter email; invite Brandon. Plan and cost confirmed at kickoff.

- [ ] **Set up the project, Sanity and previews** — BRANDON
  Repository, Vercel project, Sanity Studio and preview links, all inside the chapter's accounts.

- [ ] **List social accounts and who manages them** — CHAPTER
  Instagram, Facebook and any others to link from the site.

Content

0 / 8

Most of it already exists on the current site; this confirms it's current and approved.

- [ ] **Approved chapter history** — CHAPTER
  The latest version, with any corrections or new chapters of the story.

- [ ] **Verified lineage list** — CHAPTER
  Names, line names and crossing dates for every line since 1961.

- [ ] **Confirm Basileus ordinals** — CHAPTER
  The current site lists the current Basileus as both 26th and 28th.

- [ ] **Current officers** — CHAPTER
  Titles, names, chapter emails and headshots.

- [ ] **Program descriptions** — CHAPTER
  Achievement Week, Talent Hunt® Program, Scholarship, Social Action, Memorial Service, Reclamation and Retention.
- [ ] **Confirm impact figures** — CHAPTER
  $137,000 in scholarships since 2014, 3,800+ food boxes, and anything newer.
- [ ] **Events for the next 6–12 months** — CHAPTER
  Dates, places, ticket links and who to contact.
- [ ] **Pages and links to keep** — TOGETHER
  Dues payment, photo gallery, fraternity links and anything else brothers rely on.

Brand and photos

0 / 5

Permission first, then photography that does the chapter justice.

- [ ] **Logo files and written approval** — CHAPTER
  Vector artwork for the chapter mark, plus written approval from Omega Psi Phi Fraternity, Inc. for any fraternity marks on the public site. National policy says chapters can’t grant this themselves.
- [ ] **Written OK to use chapter photos online** — CHAPTER
  Including the chapter portrait and gala photos shown in the concept.
- [ ] **Photographer credit and rights** — CHAPTER
  For professional event photos.
- [ ] **Consent approach for youth photos** — CHAPTER
  Talent Hunt participants and scholarship recipients.
- [ ] **Archival photos, scanned** — CHAPTER
  Charter-era and early chapter photos for the history pages.

Brothers' Hub decisions

0 / 7

Phase 2, quoted separately after launch. These shape logins, dues and communication, so they come from chapter leadership.

- [ ] **Member roster source of truth** — CHAPTER
  Who gets a login, and who keeps the roster current.
- [ ] **How financial status is tracked** — CHAPTER
  Chapter versus national dues, and who marks a brother financial.
- [ ] **Dues amounts, schedule and refund policy** — CHAPTER
- [ ] **Stripe account in the chapter's name** — CHAPTER
  Connected to the chapter bank account, managed by the Keeper of Finance.
- [ ] **Announcement rules** — CHAPTER
  Who can send to all brothers, and how brothers opt in to email and text.
- [ ] **Voting rules from the bylaws** — CHAPTER
  Who can vote, and whether votes are anonymous.
- [ ] **Member data and privacy** — TOGETHER
  What is stored, who can see it, and how long it is kept.

Launch and handoff

0 / 5

Going live without breaking email or links, and leaving the chapter in control.

- [ ] **Editor training on Sanity Studio** — BRANDON
  A recorded session plus a one-page guide.
- [ ] **Redirects from old page addresses** — BRANDON
  So existing links and search results keep working.

- [ ] **Planned domain switch** — TOGETHER
  On an agreed date, with chapter email checked right after.
- [ ] **Handoff guide** — BRANDON
  Who is admin of what, how to edit, and who to call.
- [ ] **Support plan after launch** — TOGETHER
  Optional ongoing help, agreed separately.

THE STACK

Built to last, owned by the chapter

Every account is created in the chapter's name, with a shared chapter email. I'm invited as an admin, so nothing depends on one person.

PHASE 1 · PUBLIC SITE

GitHub	Where the site's code lives. Chapter-owned organization; full history of every change.
Vercel	Hosts the site and the domain. Preview link for every change, one-click rollback, fast worldwide.
Sanity	The content system brothers edit. History, officers, programs, events, photos and announcements in simple forms.
Next.js	The website framework. The scroll-animated site from the concept, built to be fast on phones.

PHASE 2 · BROTHERS' HUB (QUOTED SEPARATELY)

Clerk	Member sign-in. Brothers log in to the Hub; officers get admin access.

Neon Postgres	Member data. RSVPs, check-ins, votes and financial status.
Stripe	Dues and tickets. Payments go straight to the chapter’s bank account, with receipts.
Resend	Chapter email. Announcements and event reminders from the chapter domain.
Vercel Blob	Private document vault. Minutes, bylaws and forms, visible to signed-in brothers only.

AFTER LAUNCH

How the brothers keep it up

01 **Edit in Sanity Studio.** Events, officers, programs, photos and announcements are simple forms at the site’s /studio address. No code.

02 **Preview, then publish.** Editors see changes before they go live. Publishing updates the site in under a minute.

03 **Roles, not passwords.** Each officer gets their own login with the right access. When officers change, swap the people, not the passwords.

04 **Safe by default.** Every code change gets its own preview link on Vercel, and any release can be rolled back in one click.
